The *Jesus* Index

A GLOBAL MEASURE OF JESUS-FOLLOWING

Two-pager · for a board or partner

How are young people following Jesus, and where do they stop moving?

The Jesus Index is one short, anonymous survey any ministry can run with the young people it reaches, aged 13 to 30. It's free. Each ministry sees its own results live; together, the Collab sees a picture no single ministry could see alone.

THE MODEL · THE J12

	EXPOSURE	RESPONSE	FORMATION	MULTIPLICATION
Follow personal faith	heard of Jesus	believes in Jesus	being shaped	helps others believe
Mission outward	aware of the call	convinced it's theirs	practising witness	mobilising others
World lived impact	sees faith should matter	believes faith matters	choices reshaped	changing their spheres

HOW IT WORKS

1 Join and sign in

Join at jfindx.org, then sign in with your ministry email: no password. You get your own branded survey and dashboard.

2 Confirm consent

For your organisation, then for each survey you send, including how parental consent was gathered for 13–17s. No consent, no participation.

3 Start a survey for each group

Choose the J12 or the Full survey, add your welcome, and set when it opens and closes. Each has its own results.

4 Read it, and ask

The J12 matrix, the Unengaged matrix and a heat map, live. “What does this mean?” sends your question to a Collab facilitator.

THE PROMISES THE PLATFORM KEEPS

Of those who completed it
Never a whole population; every score shows its n.

Nothing that points at a person
A score at 10 people; a city at 400; a country at 2,000.

Aggregates only
No organisation ever sees one person’s answers.

Kept only as long as needed
Identifying details removed after 60 days; cleaned answers up to 5 years.

Minors protected at the edge
Consent, including parental, gathered and held by each ministry.

Your brand, not ours
Your name, colour and logo; the Index sits in the footer.
